

5th Technology Summit and Conference

Sponsorship Opportunities

CENSIS is the centre of excellence for Sensor and Imaging Systems (SIS) and Internet of Things (IoT) technologies.

Almost 400 delegates from industry, academia and the public sector attended our 4th Technology Summit & Conference in 2017 in Glasgow, with over 63% of delegates coming from industry. Build awareness of your company and your brand by taking advantage of sponsorship opportunities for our fifth event.

8th November 2018
Royal Concert Hall (New Auditorium), Glasgow G2 3NY
9am-5pm followed by drinks reception
Registration is open

Exceptional feedback from 2017 exhibitors and sponsors...

It was a superb event, very well organised and very productive for us. Having a stand made a huge difference to the number of people we engaged with on the day and it really helped raise our profile. I cannot thank CENSIS enough for the support. I really look forward to future events.

.....

The mix of attendees was once again of a very high standard as well as a higher footfall.

.....

Thank you for having us at the Tech Summit. It was great to exhibit and we had a really good day. Congratulations on a very well organised and interesting conference!

.....

Exceptional feedback from 2017 exhibitors and sponsors...

I want to thank CENSIS for a fantastic conference and the opportunity to exhibit; we've met a great number of interested individuals and organisations from the event!

.....

I was very impressed with the agenda and quality of topics. I enjoyed the whole event and it was great to see such a dynamic technical industry in Scotland. I am already looking forward to next year.

.....

Just a quick note to say well done today... The quality of people approaching our stand was top notch!!! CENSIS is getting it right with IoT.

.....

From what I saw there was a lot of high value networking being facilitated by CENSIS throughout.

.....

Benefits of Sponsorship

- ✓ Promote your brand to a growing audience of specialists
- ✓ Exponential growth of the event since 2014, from fewer than 100 to almost 400 delegates
- ✓ Tap in to the full Sensor and Imaging Systems and Internet of Things supply chain on a single day
- ✓ The event brings together technology developers, system integrators, end users, funders, suppliers and stakeholders
- ✓ Associate your brand with a high calibre event
- ✓ Over 93% of those who answered the 2017 feedback survey would attend another Technology Summit
- ✓ Benefit from pre and post event PR and social media via CENSIS channels
